Release notes

Summary

This document contains the updates included in the Patient application version 1.237, Clinic version 4.206 and Manage version 3.128. There are no updates on the Medical content in this release. Note that there will be no updates during weeks 52 and 1, and that the changes in this release note are expected to be launched to production on Wednesday the 8th of January.

Patient application

Changes in version 1.237

1	Accessibility adoptions in the chat
	The chat has been updated to be more accessible. As a part of this work, the animation indicating that a practitioner is typing in the chat has been improved. Now it only appears when a practitioner is actively writing in the chat.

Clinic

Changes in version 4.206

| 1	New version of the Clinic User Manual
	Version 7.0 of the Clinic User Manual is now available from within the user interface and on our webpage: https://platform24.com/manuals

Click on the User Manuals link in your profile to reach the User Manuals.
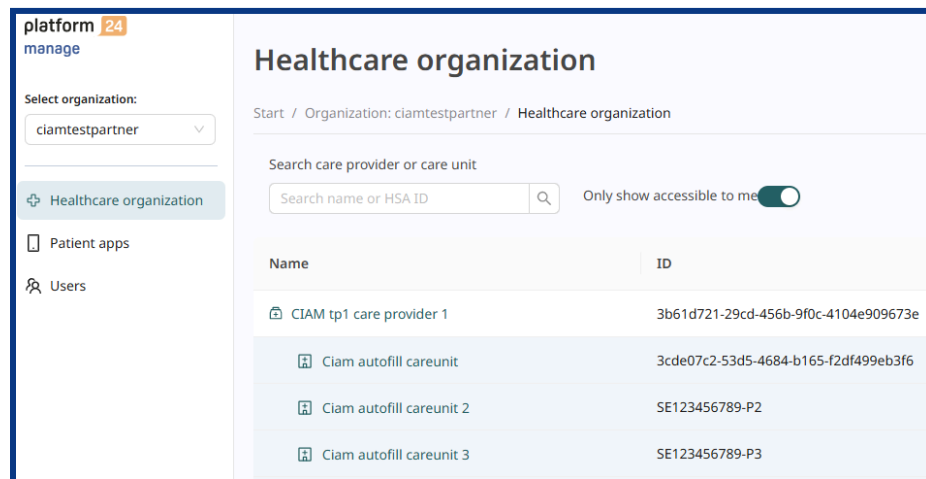

Manage

Changes in version 3.128

1   Main menu

The main menu on the left side has been updated. *Partner* has been changed to *Organization*, the name of the logged in user has moved down and the Manage logo has been updated.

2 Updated Healthcare organization page

The page that contains care providers and care units under Healthcare organization, has been updated with icons to make a clear distinction between care providers and care units.

Observe!

What is included in the release notes is what is intended to be released. Be aware that the development is currently under regression testing and have to pass the tests in order to be released. Therefore, if a change is made to the release that will affect what is written in the release notes, a new version of release notes will be communicated.

Questions

If you have any questions, please contact Platform24 Support or your Customer Success Manager.
