

# Release notes

## Summary

This document contains the updates included in the Patient application version 1.238 and the Medical content version 1.139. There are no updates on Clinic or Manage in this release. The changes are expected to be launched to production on the 21st of January.

## Patient application

### Changes in version 1.238

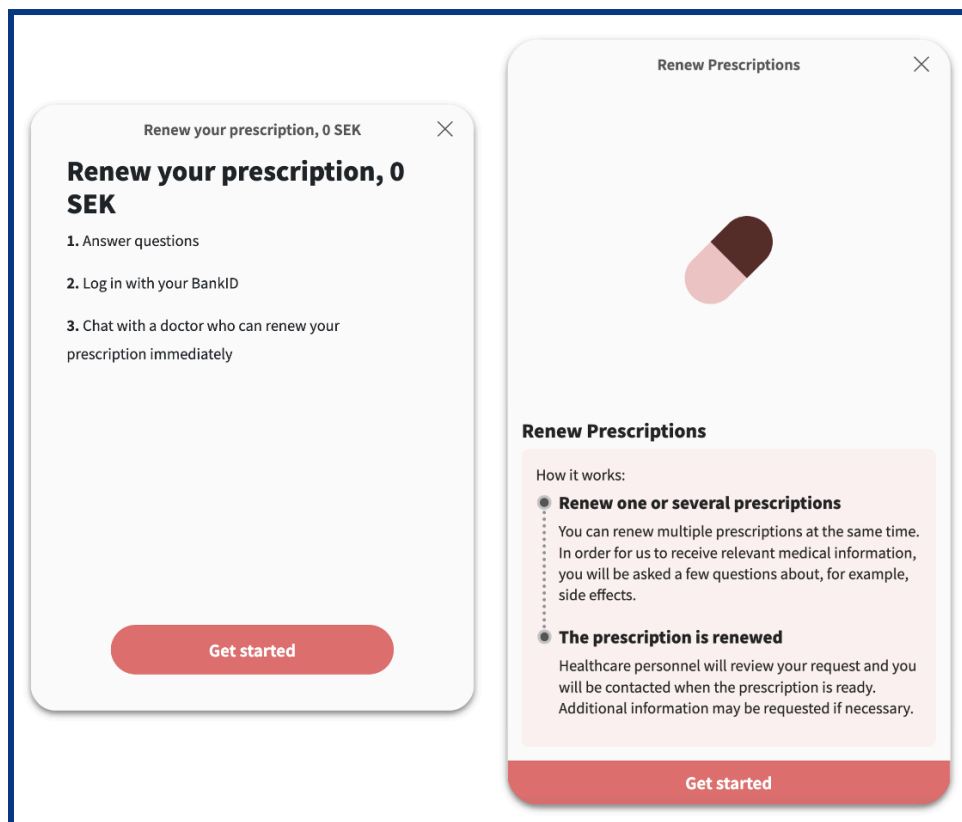

#### 1 Improved introduction page in the “renew prescription” flow

We have improved the introduction page in the “renew prescription” flow in order for it to:

1. Give an accurate description of what will happen in the flow (the current description is not accurate)
2. Have the same design as the introduction page in the triage flow

This will be rolled out gradually to be shown in all “renew prescription” flows, whether it is initiated from a menu item on the start page or the seek care flow (triage).

The default text describes the flow, and is made general enough to work for all customers, but it is possible to change the text. Reach out to your Customer Success Manager for more information.

The old “renew prescription” introduction page to the left, and the new one to the right

## Medical Content

### Changes in version 1.139

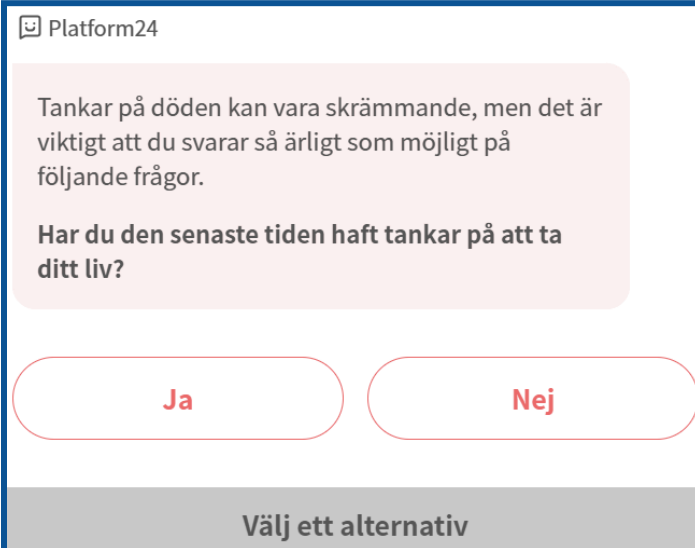

#### Medical content populating the Triage product

- 1 Updates in the questionnaire *depression* and related questionnaires

Updates have been made in the questionnaire *depression* to align with RGS. This includes a lowering of urgency level for suicidal thoughts to “promptly” for adults. Children still get the urgency level “immediate”.

The urgency level has also been lowered in other questionnaires where suicidal thoughts are asked, namely in:

- *other Symptom*
- *period Pain*
- *pregnancy*
- *insomnia*
- *addiction*
- *anxiety*
- *confusion Memory Loss*
- *eating Disorder*
- *insomnia Psychologist*
- *Psychiatric*

Platform24

Tankar på döden kan vara skrämmande, men det är viktigt att du svarar så ärligt som möjligt på följande frågor.

**Har du den senaste tiden haft tankar på att ta ditt liv?**

**Ja** **Nej**

Välj ett alternativ

Question about suicidal thoughts as it looks in all questionnaires mentioned, in Swedish.

The changes apply directly upon release for all customers, except for those with partner-specific questionnaires.

## **Observe!**

What is included in the release notes is what is intended to be released. Be aware that the development is currently under regression testing and have to pass the tests in order to be released. Therefore, if a change is made to the release that will affect what is written in the release notes, a new version of release notes will be communicated.

## **Questions**

If you have any questions, please contact Platform24 Support or your Customer Success Manager.
