

# Release notes

## Summary

This document contains the updates included in the Medical content version 1.155. There are no updates on the Patient application, Clinic or Manage in this release. The changes are expected to be launched to production on the 1st of July.

## Medical Content

### Changes in version 1.155

#### Medical content populating the Triage product

The changes apply directly upon release for all customers who use the questionnaires mentioned, except for those with customer-specific questionnaires.

- |   |   |
|---|---|
| 1 | <p>Improvements to the questionnaire <i>footAnkle</i></p> <p>Improvements have been made to the questionnaire <i>footAnkle</i>, to reduce statistically verified over-triage related to pain with or without preceding trauma.</p>  |
| 2 | <p>Improved self-care information in the questionnaire <i>eyeTrauma</i></p> <p>In the questionnaire <i>eyeTrauma</i>, the self-care information has been improved for patients with minor eye trauma. Information has been added regarding pain or affected vision and when these symptoms usually resolve.</p> |

## Observe!

What is included in the release notes is what is intended to be released. Be aware that the development is currently under regression testing and have to pass the tests in order to be released. Therefore, if a change is made to the release that will affect what is written in the release notes, a new version of release notes will be communicated.

## Questions
