Clinic

Changes in version 4.234

1 Fix to remove duplicates in patient activity

This change is only applicable to customers using "Patient activity". This change will be applied automatically for all applicable customers.

Today, the "Appointments" tab of the patient activity is showing appointments, interviews and consultations. However, since the interviews and consultations already were shown in their respective tabs, we have now removed consultations and interviews from the tab "Appointments" to not have any duplicates.

Appointments	Attestations Consultations Interviews Co	onference calls
